Acrylic Light File Read Me

Description

INSTRUCTIONS

• LIGHT INSERTS – The material I've used for all light inserts is 1/8? clear acrylic. I recommend reversing images if
possible and engraving on the backside of the project so when viewing the light you are looking at the smooth
surface. This is NOT required, but simply the way I prefer to do them.

The LED light bases used for these lights can be purchased at Amazon from the links below.

- 12 Light Bases – https://amzn.to/444ygik
- 35 Light Bases – https://amzn.to/47IpF6K

For acrylic lights that can be written or drawn on we use white chalk markers that wipe off easily and show up great with the glow – https://printncutdesigns.com/chalkmarkers

COLOR KEY & SIZING

You can feel free to change the black engrave lines as you want. If changing black lines to score you will have double
lines when scoring.

• **RED LINES – CUT**
• **BLUE LINES – SCORE/LINE**
• **BLACK LINES – ENGRAVE**
