

Sublimation File Read Me

Description

Instructions

Cut your blank from your choice of wood, acrylic, or sublimation hardboard.

Purchase the blank hair clip laser svg cut file here —> <https://printncutdesigns.com/product/blank-claw-hair-clip-laser-cut-file/>

Print your PNG Files and secure your blank to the print with either [heat safe tape](#) or [Pixie Spray](#)

Press your design at the recommended settings for your substrate – I typically start at 380F for 45 seconds on the double sided white MDF and Smokesub and see how it looks.

My go to sublimation supplies:

- Koala Sublimation Paper – <https://amzn.to/3tWd7tF>
- Koala Sublimation Ink – <https://amzn.to/3FPZEGC>
- Smokesub Smokey Hill Designs – <https://smokeyhilldesigns.com/products/smokesub-sublimatable-solid-white>
